

Logiss

logistic solving system

WELCOME TO LOGISS ●

WHO WE ARE

WE PLAN SHARED SOLUTIONS

Reliability, precision and flexibility.

Logiss was born in a territory that makes quality its strong point.

The synergy and knowledge of professionals in the field of internal handling, mechanical and structural engineering have given shape to a company whose vision is the design of shared solutions.

Research and innovation are the foundations on which Logiss builds high-performance logistics systems to promote the development of its partners and their businesses in a 4.0 vision, the only true mission of Logiss.

WHAT WE DO

ONLY ONE GOAL:
THAT OF OUR PARTNER

Logiss offers turnkey solutions to provide an industrialized and at the same time customized product.

Our technical team creates detailed layouts (also presented in 3D and virtual 3D) with the aim of optimizing construction costs and achieving high work performances in warehouses and logistics centres.

HANDLING BOXES

Sorting systems with a full range of solutions for handling boxes, packages, envelopes and loose objects of any kind of sizes.

PALLET HANDLING

Sorting systems with motorized, idle roller conveyors, chain conveyors and accessory machines.

AUTOMATIC LIFTS

Systems to connect different floors related to any type of transport.

PACKAGING AND LABELING ●

Fully automated or semi-manual systems. Packaging lines for boxes and wrapping machines for pallet of any size and weight.

SPECIAL HANDLING ●

Machines built on a project for particular needs, such as backlit conveyor belts for robots, specific chain conveyors, special storage systems and more.

COMMITMENT

THE INTERNATIONAL CERTIFICATION NETWORK

CERTIFICATE

CISQ/ENQ has issued an IQNet recognized certificate that the organization:

LOGISS SRL

VIALE DEL LAVORO 16/E - 38068 SCIVERETO (TN)

has implemented and maintains a
Quality Management System

for the following scope:

Design and realization of integrated solutions for: logistics, systems and machines for internal handling and packaging. Charging systems for electric vehicles. Assembly assistance
